ORDER NO: 14 047

DATE FILED: JUNE 12, 2014

REQUEST OF: NATIONAL GRID

National Grid hereby respectfully requests your consent to the locations of mains as hereinafter described for the transmission and distribution of gas in and under the following public streets, lanes, highways, and places of the Town of Braintree and of the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and accomplish the objects of said Company; and the digging up and opening the ground to lay or place same:

To install and maintain approximately 140 feet, more or less, of 2 inch gas main in Celia Road, Braintree from the existing 2 inch gas main at house #54, westerly to house #47 to serve houses #38, #47, and #48.

BELD: Engineering has reviewed petition #14 047 and has no underground utility conflicts within the proposed scope of work.

DPW: That section of Celia Rd is not under moratorium and no Town construction is pending this year. However, the Town intends to install a new water main through that entire area in two years, so prompt completion of the gas main installation is encouraged. We'd recommend that the petition can be granted under the normal conditions, with emphasis on the requirements that the gas main be laid outside of the trench of the water mains in service and that the trench pavement not be left low for any length of time.
