

Braintree Town Council

ORDER NO: 16 015

DATE FILED: APRIL 5, 2016

REQUEST OF: NATIONAL GRID

National Grid hereby respectfully requests your consent to the locations of mains as hereinafter described for the transmission and distribution of gas in and under the following public streets, lanes, highways, and places of the Town of Braintree and of the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and accomplish the objects of said Company; and the digging up and opening the ground to lay or place same:

**To install and maintain approximately 355 feet more or less of 2 inch gas main in Hoover Ave., Braintree. From the existing 2 inch gas main at St. Michael Rd. southerly to end of main at house #46. Approximately 300 feet, more or less, of 2 inch gas main in Torrey Rd., from Hoover Ave. westerly to existing 2 inch gas main in Torrey Rd at house #38. And approximately 255 feet more or less of 2 inch gas main in St. Michael Rd. from Hoover Ave. Westerly to end of main at #38 St. Michael Rd. All of which to replace and abandon 355 feet of 2 inch gas main in Hoover Ave., 300 feet of 2 inch gas main in Torey Rd., and 255 feet of 2 inch gas main in St. Michael Road with the following conditions:**

**BELD:** Engineering has reviewed the NGRID Gas Petition and finds no underground electric utility conflicts within the proposed scope of work.

**DPW:** These streets are not under moratorium. The Town intends to resurface the streets this year, so prompt completion of the gas main installation would avoid coordination problems with the Town's contractor. We'd recommend that the petition be granted under the normal conditions, with emphasis on the requirements that the gas main be laid outside of the trench of the water mains in service and that the trench pavement not be left low for any length of time; We also recommend that the following requirement be added to the permit, if it is to be granted:

Neither National Grid nor any of its contractors is authorized to close any street or to close a direction of travel to facilitate their work without authorization from the Director of the Department of Public Works or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or fire emergency. Construction zone traffic safety issues are to be addressed by using appropriate traffic control signs and devices and the use of police officers for traffic control to safely guide traffic through the work zone. If a closure is authorized by the DPW, it shall not be implemented until signs and police officers (where needed) are properly in place in conformity with the written plan prepared by the contractor's engineer and approved by the DPW and Police Department.

Town of Braintree / Town Council:

IT IS HEREBY ORDERED that the locations of the mains of the Nationalgrid for the transmission and distribution of gas in and under the public streets, lanes, highways and places of the Town of Braintree substantially as described in the petition date March 29, 2016 attached hereto and hereby made a part hereof, and of the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and/or accomplish the objects of said Company, and the digging up and opening the ground to lay or place same, are hereby consented to and approved.

The said Nationalgrid shall comply with all applicable provisions of law and ordinances of the Town of Braintree applicable to the enjoyment of said locations and rights.

Date this 11th day of May, 2016.

I hereby certify that the foregoing order was duly adopted by the Town Council of the City of Braintree, MA on the 3rd day of May, 2016.
