

PETITION OF NATIONAL GRID FOR GAS MAIN LOCATIONS

#16-052

Town of Braintree / Town Council:

The Nationalgrid hereby respectfully requests your consent to the locations of mains as hereinafter described for the transmission and distribution of gas in and under the following public streets, lanes, highways and places of the **Town of Braintree** and of the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and accomplish the objects of said Company; and the digging up and opening the ground to lay or place same:

To install and maintain approximately 150 feet more or less of 2 inch gas main in Townsend Ave., Braintree. From the existing 2 inch gas main at Middle St, westerly to the end of the main at house #55. All of which to replace and abandon the existing 1 1/2 inch and 2 inch gas mains in Townsend Ave.

Date: September 8, 2016

ORDER NO: 16 052

DATE FILED: SEPTEMBER 8, 2016

REQUEST OF: NATIONAL GRID

National Grid hereby respectfully requests your consent to the locations of mains as hereinafter described for the transmission and distribution of gas in and under the following public streets, lanes, highways, and places of the Town of Braintree and of the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and accomplish the objects of said Company; and the digging up and opening the ground to lay or place same:

To install and maintain approximately 150 feet of 2 inch gas main in Townsend Avenue, from the existing main at Middle Street, westerly to the end of the main at house #55. All of which is to replace and abandon the existing 1 ½" and 2" gas mains in Townsend Avenue.

BELD: Townsend Avenue; Please note, BELD has a 115,000 volt oil filled transmission line located on Cleveland Ave at the end of the proposed scope of work. BELD Engineering should be notified in advance of any excavation to be performed in close proximity to this line. BELD will provide on-site support and safety personnel at no cost to the project.

DPW: Townsend Avenue is not under the moratorium. We'd recommend that the petition be granted under the normal conditions, with emphasis on the requirements that the gas main be laid outside of the trench of the water mains in service and that the trench pavement not be left low for any length of time; We also recommend that the following requirement be added to the permit, if it is to be granted:

Neither National Grid nor any of its contractors is authorized to close any street or to close a direction of travel to facilitate their work without authorization from the Director of the Department of Public Works or the Highway Superintendent. The Chief of Police can also authorize a closure for a police or fire emergency. Construction zone traffic safety issues are to be addressed by using appropriate traffic control signs and devices and the use of police officers for traffic control to safely guide traffic through the work zone. If a closure is authorized by the DPW, it shall not be implemented until signs and police officers (where needed) are properly in place in conformity with the written plan prepared by the contractor's engineer and approved by the DPW and Police Department.
