ORDER NO: 11-061

ORDERED: NATIONAL GRID

PETITION OF NATIONAL GRID FOR GAS MAIN LOCATIONS

The National Grid hereby respectfully request your consent to the locations of mains as hereinafter described for the transmission and distribution of gas in and under the following public streets, lanes, highways, and places of the Town of Braintree and the pipes, valves, governors, manholes and other structures, fixtures and appurtenances designed or intended to protect or operate said mains and accomplish the objects of said Company; and the digging up and opening the ground to lay or place same:

To install and maintain approximately 440 feet, more or less of 4 inch gas main in Elm Street Braintree. From the existing 4 inch gas main at Elmlawn Road Easterly to the existing 2 inch gas main in Bower Road. All of which to replace and abandon the existing gas mains in Elm Street.

Petition #11 061 was unanimously approved by Council with the following conditions:

BELD: Has underground **15kV** distribution line(s) and **115kV oil filled transmission lines** within the proposed scope of work. These utilities will be located and marked through the Digsafe process. If excavating is in close proximity to the **115kV oil filled line** the contractor shall notify the BELD Engineering Department at least (48) hours prior to excavation. BELD will provide onsite safety personnel at no cost to National Grid.

DPW: **Elm Street** from Elmlawn Road to Bower Road. This section of Elm Street was resurfaced in 2005. In the interim, there have been several leaks dug and repaired. Because of the frequency of problems on this line and since Elm Street is not under the moratorium, it is our recommendation that this petition **should be approved with our "standard" repair specifications, with any temporary pavement being maintained flush with the surrounding pavement until final repair.**
